To Feed the Nation is to Fight its Battles

PLANT WINTER WHEAT

"The man who tills the soil, supports a soldier in the field and the family at home, is rendering as noble and patriotic a service as the man who bears the brunt of battle."

BREADSTUFF IS SCARCE

And Indications are that the Wheat Acreage May be Below Normal
Every Bushel of Wheat Raised will be a Contribution to the Cause of Civilization.

NEBRASKA MUST CONTINUE TO DO ITS FULL SHARE

For its own benefit and for the Nation. It can do this by planting every possible acre of Wheat

WHAT ABOUT YOUR SEED WHEAT?

Have you arranged for all the Seed Wheat you will need?

THE RESPONSIBILITY IS YOURS THE NEED IS GREAT—THE TIME NOW

Organize and determine the amount of wheat needed for seed in each locality in your county.

A Survey Has Been Made to Locate GOOD SEED WHEAT in Nebraska

There is probably enough good seed wheat in the state if properly distributed
to seed our normal acreage.

INFORMATION CAN BE OBTAINED FROM YOUR LOCAL COUNCIL OF DEFENSE, THE STATE COUNCIL OF DEFENSE, OR
THE NEBRASKA AGRICULTURAL COLLEGE, LINCOLN, NEBRASKA

STRIVE FOR A BIG YIELD

Plow Early==Give time for the accumulation of water in the soil and for the seed bed to become firm.
If plowing is late, plow more shallow and work the seed bed down with disc and harrow. Where
threshing is delayed small grain can be stacked to allow the land to be plowed. Keep the seed bed
free of weeds. They use moisture and plant food the crop should have.

CORN FODDER MAKES GOOD FEED. CUT MORE CORN AND PLANT LAND TO WHEAT

Wheat sown in standing corn is a successful practice in many sections of Nebraska

PLANT THE WHEAT WITH A DRILL TO INSURE BETTER GERMINIZA- TION AND TO ECONOMIZE ON SEED

Every Bushel of Wheat will bring a good price. Do your part in feeding the Nation

GEORGE COUPLAND, Chairman Food Conservation Department
